LASHES

PLEASE NOTE

We want you to love your lashes. Exposure to humidity immediately after application can prevent the lash adhesive from bonding properly, leading to poor retention.

Please let us know within 48 hours of your extension appointment if you are experiencing excessive lash shedding (5–6 lashes or more per day).

Eyelash extensions typically last 3 to 4 weeks, depending on your aftercare, skin type, and local climate.

To maintain the best results, we recommend booking a refill every 1-2 weeks.
